

About us

Established in 1996, located in Shenzhen, China, our company specializes in various types of wall mounted light switches and accessories, including touch switch, two way switch, dimmer switch, remote control switch, remote dimmer switch, remote two way switch, wall sockets, etc.

Our products are popular in Europe, America and Asia. High quality, quick response for enquiry, good communication, prompt delivery, and excellent service are our advantages. We are willing to advance jointly hand in hand with all the customers and be mutual beneficial. Look forward to building up longterm and friendly business relationship with dealers as well as distributors.

The range

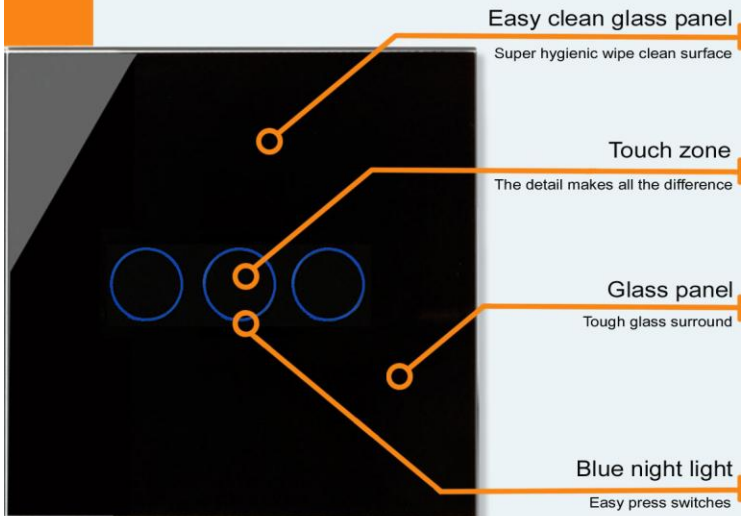

Touch Wall Light Switch

Feature:

- Crystal glass panel, looks clean and clear
- Single live wire control, replace the old switch directly
- Characterized by non-contact, weak-current control and maintenance free
- Free from noise pollution and environment-friendly
- Easy operation, touch slightly the switch icon to turn on/off the light

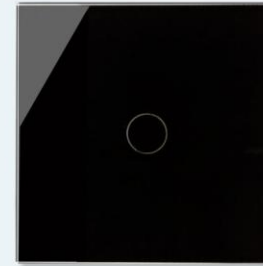

Specification:

- Gang : 1/2/3/4 Gang
- Dimension: 86mm*86mm*37mm
115mm*78mm*42mm(US Style)
- Operating Voltage: AC110V~250V/50Hz/60Hz
- Maximum Current for Each Gang: 5A
- Maximum Load Power for Each Gang: 1000W/220V or 600W/120V
- Self Consuming Power: Less than 0.1mW
Lifelong: 100,000 Times of Operation

Dimmer Wall Switch

Feature:

- Panels of different colors and diversified appearance, fitting your home decoration
- Adjustable, increase / decrease the brightness of the light
- Used for incandescent lamps, halogen lamps, and other types of dimmable lamps, except for LEDs

Specification:

- Gang : 1/2/3 Gang
- Dimension: 86mm*86mm*37mm
115mm*78mm*42mm(US Style)
- Material: Crystal Glass Panel.
- Operating Voltage: AC110V~250V/50Hz/60Hz.
- Maximum Current for Each Gang: 2.5A
- Maximum Power for Each Gang: 500W/220V or 250W/120V.
- Self Consuming Power: Less than 0.1mW
- Operating Environment: -30~70 Centigrade; Less than 95%RH.
- Lifelong: 100,000 Times of Operation.

Installation Diagram

Only Live wire is connected to the switch, without Neutral wire!

Warning:

- Please shut down power before installation and dismantlement.
- Doing the Installation and dismantlement must be professional.
- Check the circle condition before installation.
- Pay an attention to the lamp introduction, since some lamps have special condition.
- Dismantle the product to avoid ruin as the circuit is testing.
- Avoid shock, wateriness, hot, and knocking when installing and using the product.
- Forbid wet cloth, chemistry and scour water when cleaning.
- Over loading is forbidden.
- Circuitry which the products installed in should be set properly.
- Do not use metal box for installation, it maybe shorten the distance of remote control or cause electric shock.
