Tomato

1 TM139 Tomato Seeds

Plant

- Vigorous plant
- Perform very good under high temperatures
- Tolerance to Fusarium wilt

Fruit

- Red color
- Globe
- Excellent firmness
- Good shipping ability
- Weight:190-210

2 TM189 Tomato Seeds

Plant

- Vigorous plant
- High yield

Fruit

- Red color
- Good firmness
- Good shipping ability
- Weight:190-210 g

3 TM562 Tomato Seeds

Plant

- Vigorous plant
- Very Good adaptability with high yield
- Tolerance to F-1, F-2, For, Ss, ToMV, V

Fruit

- Long shelf-life
- Flattened globe
- Uniform fruit size
- Excellent firmness
- Weight: 190-210 g

4 TM759 Tomato Seeds

Plant

- Vigorous plant
- Tolerance to F01(1, 2,) M, TMV, ToMV, V
- Resistant to root knot

Fruit

- Very good color and shape
- Uniform fruit size
- Excellent firmness
- Weight: 190-210 g

5 TM510 Tomato Seeds

Plant

- Vigorours plant
- Tolerance to complecated disease package

Fruit

- Wonderful flavor with Excellent shiny red color
- Globe in shape

Weight: 18-25 g

6 TM963 Tomato seeds

Plant

- Continuous fruit setting and production
- High yield ,Perform very good under high temperatures

- Heat resistance strong
- Growth stability, good adaptability

Fruit

- Prolonged shelf life
- Beautiful bright red color
- globe in shape
- Uniform fruit size
- Excellent firmness
- Weight: 190-210 g

7 TM386 Tomato seeds

Plant

- Vigorous plant
- Early maturity
- Very Good adaptability with high yield

Fruit

- Prolonged shelf life
- Beautiful deep red color
- Globe
- Excellent firmness
- Good shipping ability and high value market
- Weight:200-230

8 TMnew46 Tomato seeds

Plant

- Semi-open plant with medium vigorous plant
- Adapted Autumn and Spring crops
- Perform very good under low temperatures
- High tolerance to Fol(1,2,3),V, ToMV(0-2)

Fruit

- Good shelf- life
- Deep red colour
- Uniform fruit size
- Excellent firmness
- Weight: 190-210 g

Sweet Pepper

1 SP323 Sweet pepper seed

Plant

- Early maturing with vigorous plant
- Tolerance to L4

Fruit

- Sweet taste
- Green to yellow
- Long shelf-life

- Good firmness with glossy appearance
- Weight: 170-190 g

Growing adaptability

- Good adaptability
- Planting season: winter & early spring production in north China

2 SP263 Sweet pepper seeds

Plant

- Vigorous plant
- Very good adaptability
- Continuous fruit setting and production
- Tolerance to TMV,PTV0

Fruit

- Heavy fruit
- Good shipping ability
- Thick walls
- Weight:200-220 g

3 SP959 Sweet pepper seed

Plant

- Vigorous plant
- Good adaptability
- Tolerance to L4

Fruit

- Sweet taste
- Excellent shiny fruit color
- Long shelf-life
- Good firmness
- Thick walls
- Weight: 180 g

4 SP429 Sweet pepper seed

Plant

- Vigorous plant
- Good adaptability
- Tolerance to TMV3

Fruit

- Sweet taste
- Excellent shiny fruit color
- Long shelf-life
- Good firmness
- Thick walls
- Weight: 170-190 g

5 SP458 Sweet pepper seed

Plant

- Very vigorous plant and wide adaptability
- Lamuyo-type
- Good setting under low temperatures
- Tolerance to TMV3,L4
- High yield

Fruit

- Heavy fruit
- Good shipping ability
- Thick walls
- Size: 15*9
- Weight: 220-240 g

6 SP946 Sweet pepper seed

Plant

- Early mature
- Good setting under high temperatures
- Hot resistant
- Suitable for both open field and greenhouse

Fruit

- Heavy fruit
- Good shipping ability
- Green to red , fruit type founder strong
- Weight: 180g

Early mature

Hot resistant

Suitable for both Open field and greenhouse Continuous fruit setting and production

7 SP936 Sweet pepper seed

Plant

- High yield
- Very good adaptability
- Hot resistant, and also good for winter season

Fruit

- Heavy fruit
- Good shipping ability

Thick walls

- Weight:200-220 g

8 SP161 Sweet pepper seed

Plant

- Vigorous growth
- Lamuyo-type
- Continuous fruit setting and production
- Good setting under low temperatures
- Resistant to virus diseases
- Suitable for winter season in greenhouse

Fruit

- Heavy fruit
- Good shipping ability
- Green to red , fruit type founder strong
- Size: 15*9
- Weight: 250g

Pumpkin

East Star Pumpkin seed

Plant

- Continuous fruit setting and production
- Good setting under low temperatures
- Tolerance to Powdery mildew

Fruit

- Gold red color
- Flattened globe
- Starchy and delicious
- Fabulous eating quality
- Long shelf-life
- Good firmness
- Thick flesh
- Weight:1.5 kg

Watermelon

1 Honey Treat Seedless watermelon seed

Plant

- High yield
- Vigorous plant
- Good setting under rain

Fruit

- Excellent tolerance to Hollow Heart
- Dark red flesh
- High globe shape
- Excellent sweet taste
- Excellent crispy flesh texture
- Good shipping ability
- Weight:7-15 kg

Hot pepper

1 Hot pepper 811

Plant

- Vigorous growth
- Continuous fruit setting and production
- High yield potential
- Resistant strong

Fruit

- Horn-like fruit shape
- Green-red fruit color
- Long shelf-life
- Suitable for export processing
- Weight:20 g
- Suitable for north area in the spring in open field

Pakchoi

Plant

- Easy to plant
- Early-maturing hybrid variety Wide petioles
- Strong heat resistance
- Suitable for all year round cultivation

Fruit

- Dark green leave
- Strong in midsummer condition
- Easy to cultivation in tropical and sub-tropical areas
- Sowing after about 30 to 35 days may harvest
