FOSHAN DASEN KITCHENWARE CO., LTD, belonging to USA Dasen Group, is one of the professionally leading company specialized in designing, manufacturing and marketing of high quality stainless steel sinks, occupying more than 10000 square meters. And the transport is also very convenient, adjoining to Guangzhou, Shenzhen, HK International Airport, and Seaport. With 15 years for manufacturing sink, relying on continuous innovation and modern management, which makes us become one of the best companies for manufacturing the kitchenware products.

At the beginning of 2008, we introduce international advanced kitchenware production equipment and leading international management system with all computerized control, using whole pull stretch technology replacing traditional welding which enables us re-orientation domestic sink industry standards. The "Dasen" stainless steel sink from the American design philosophy, using rich nickel-chromium stainless steel plate, coupled with sophisticated, unique surface treatment technology, as well as pelvic floor moisture-resistant spray and soundproofing device which makes DASEN guide the popular status.

Focusing on continuous innovation and development with excellent quality & good prices, Dasen products are warmly accepted by global consumer. "Honesty, dedication, perseverance, progressive" is our immutable working ideas and entrepreneurial spirit. We will be the best quality, the best service to customers for creating better life. We are sincerely expecting for cooperating with global partners to build mutual profits and create a bright future together!
