NEW

A favored supplier to Westfalia, Heru and Pro-Idee

Producing shoe polishing machines with LCD screens for over 10 years

Shoe polishing machines with 42" and 32" LCD screens, suitable for showing advertisements

Creative advertising solutions

If you're looking for a creative advertising display solution, look no further than us. You'll outshine the competition with our line of shoe polishing machines. Westfalia, Heru and Pro-Idee already value our shoe polishers. They've got massive LCD screens built in, so end-users walk away looking sharp and feeling good – about themselves, and your clients.

Up to 10,000 units produced monthly

We've been in our industry for over a decade, and have used our expertise to ensure our production process is as efficient as possible. We're able to turn out up to 10,000 CE- and GS-approved units monthly, and orders are ready for shipment within 30 days. And if just one of our machines is all you require, we'll happily oblige.

Custom samples in 10 to 15 days

Our R&D team can complete custom samples within 10 to 15 days and provides us with two to three new products annually. We export the majority of our units to clients in Europe. E-mail us today for a response within 24 hours.
